Zucker, Jamie 109

Subject Index

Acanthamoeba keratitis
Acanthamoeba keratitis and corneal neovascularization(letter), 152
Histopathologic evaluation of stromal inflammation in *Acanthamoeba* keratitis, 45

Allergic contact lens patients
Clinical performance of the Surevue, Focus, and CSI daily wear lenses in allergic and normal CL patients, 159

Aqueous humor
Penetration of Cyclosporin A into the rabbit cornea and aqueous humor after topical drop and collagen shield administration, 119

Aspheric bifocal contact lenses
Objective and subjective comparative analysis of diffractive and front surface aspheric CL designs used to correct presbyopia, 19

Astigmatism
Bitoric rigid CL with prism fitting in rare cases of moderate corneal and residual astigmatism, 176
Soft CLs and corneal astigmatism (letter), 214
Topographic evaluation of toric soft CL correction, 261

Bifocal contact lenses
Objective and subjective comparative analysis of diffractive and front surface aspheric CL designs used to correct presbyopia, 19
Prospective evaluation of Unilens soft multifocal CLs in 100 patients, 189

Bitoric rigid contact lens fitting
Bitoric rigid CL with prism fitting in rare cases of moderate corneal and residual astigmatism, 176

Book reviews
Age-Related Macular Degeneration: Principles And Practice, 7
Medical CL Practice: A Systematic Approach, 91
Basic Principles of Contact Lens Fitting (videotape), 91

Collagen shield
Penetration of Cyclosporin A into the rabbit cornea and aqueous humor after topical drop and collagen shield administration, 119

Confocal microscopy
Use of confocal microscopy to determine matrix and surface protein deposition profiles in hydrogel CLs, 237

Index to Volume 20:1994

Subject Index

Acanthamoeba keratitis
Acanthamoeba keratitis and corneal neovascularization(letter), 152
Histopathologic evaluation of stromal inflammation in *Acanthamoeba* keratitis, 45

Allergic contact lens patients
Clinical performance of the Surevue, Focus, and CSI daily wear lenses in allergic and normal CL patients, 159

Aqueous humor
Penetration of Cyclosporin A into the rabbit cornea and aqueous humor after topical drop and collagen shield administration, 119

Aspheric bifocal contact lenses
Objective and subjective comparative analysis of diffractive and front surface aspheric CL designs used to correct presbyopia, 19

Astigmatism
Bitoric rigid CL with prism fitting in rare cases of moderate corneal and residual astigmatism, 176
Soft CLs and corneal astigmatism (letter), 214
Topographic evaluation of toric soft CL correction, 261

Bifocal contact lenses
Objective and subjective comparative analysis of diffractive and front surface aspheric CL designs used to correct presbyopia, 19
Prospective evaluation of Unilens soft multifocal CLs in 100 patients, 189

Bitoric rigid contact lens fitting
Bitoric rigid CL with prism fitting in rare cases of moderate corneal and residual astigmatism, 176

Book reviews
Age-Related Macular Degeneration: Principles And Practice, 7
Medical CL Practice: A Systematic Approach, 91
Basic Principles of Contact Lens Fitting (videotape), 91

Collagen shield
Penetration of Cyclosporin A into the rabbit cornea and aqueous humor after topical drop and collagen shield administration, 119

Confocal microscopy
Use of confocal microscopy to determine matrix and surface protein deposition profiles in hydrogel CLs, 237

Conjunctival impression cytology
Enhancements to the conjunctival impression cytology technique and examples of applications in a clinico-biochemical study of dry eye, 59

Contact Lenses (CL)s
Alteration of corneal asphericity in rigid gas permeable CL induced warpage, 27
Annualized incidence of CL induced keratitis in Sweden and its relation to lens type and wear schedule: Results of a 3-month prospective study, 225
Automobile manufacturing: Is there a lesson here for the RGP CL industry? (guest editorial), 6
Bitoric rigid CL with prism fitting in rare cases of moderate corneal and residual astigmatism, 176
Clinical performance of the Surevue, Focus, and CSI daily wear lenses in allergic and normal CL patients, 159
Clinical management of keratoconus: A 6 year retrospective study, 194
Clinical evaluation of a computerized topography software method for fitting rigid gas permeable CLs, 231
Clinical evaluation of Purilens, an ultraviolet light CL care system, 23
Contamination of disinfection solution bottles used by CL Wearers, 32
Current indications for scleral CLs, 115
Effects of daily wear of rigid gas permeable CLs treated with CL care solutions containing preservatives on the rabbit cornea, 183
Extended wear CLs: boon or bane? 73
Extended wear, corneal hypoxia, and corneal ulcers (letter), 218
FluoroPerm 151 extended wear: A clinical study, 37
Hospitalized cases of CL induced keratitis in Sweden and their relation to lens type and wear schedule: Results of a three-year retrospective study, 97
Lipid deposits on hydrophilic and rigid gas permeable CLs, 242
Long-term use of the SoftPerm lens on pellucid marginal corneal degeneration, XX
Lower incidence of Contact lens related ulcers in Sweden: Is patient education a key?(editorial), 210
Measurable subjective patient response to the dry eye, 249
Medical CL practice: A systematic approach (book review), 91
New CL design for post-keratoplasty patients, 170
Objective and subjective comparative analysis of diffractive and front surface aspheric CL designs used to correct presbyopia, 19
Prospective evaluation of Unilens soft multifocal CLs in 100 Patients, 189
Retrospective study of disposable extended wear lenses in 100 patients: year 3, 179
Rigid gas permeable extended wear, 139
Soft CLs and corneal astigmatism (letter), 214
Study of the complications induced by conventional and disposable CLs, 103
Testing hypotheses for risk factors for CL-associated infectious keratitis in an animal model, 109
Topographic evaluation of toric soft CL correction, 261
Use of confocal microscopy to determine matrix and surface protein deposition profiles in hydrogel CLs, 237

Contact lens care
Annualized incidence of CL induced keratitis in Sweden and its relation to lens type and wear schedule: Results of a 3-month prospective study, 225
Lower incidence of CLs related ulcers in Sweden: Is patient education a key (editorial), 210

Contact lens complications
Annualized incidence of CL induced keratitis in Sweden and its relation to lens type and wear schedule: Results of a 3-month prospective study, 225
Extended wear, corneal hypoxia, and corneal ulcers (letter), 218
Hospitalized cases of CL induced keratitis in Sweden and their relation to lens type and wear schedule: Results of a three-year retrospective study, 97
Study of the complications induced by conventional and disposable CLs, 103
Testing hypotheses for risk factors for CL-associated infectious keratitis in an animal model, 109

Contact lens deposits
Lipid deposits on hydrophilic and rigid gas permeable CLs, 242
Use of confocal microscopy to determine matrix and surface protein deposition profiles in hydrogel contact lenses, 237

Contact lens disinfection
Clinical evaluation of Purilens, an ultraviolet light CL care system, 23
Contamination of disinfection solution bottles used by CL wearers, 32
Effects of soft CL disinfection solutions on rabbit corneal epithelium, 52
Disinfection efficacy in an integrated ultraviolet light CL care system, 246

Contact lens fitting
Clinical evaluation of a computerized topography software method for fitting rigid gas permeable CLs, 231

Contact lens manufacturing
Automobile manufacturing: Is there a lesson here for the RGP CL industry? (guest editorial) 6

Contact lens solutions
Effects of daily wear of rigid gas permeable CLs treated with CL care solutions containing preservatives on the rabbit cornea, 183

Contrast sensitivity
Objective and subjective comparative analysis of diffractive and front surface aspheric CL designs used to correct presbyopia, 19

Corneal edema
Rigid gas permeable extended wear, 139

Corneal epithelium
Effects of soft CL disinfection solutions on rabbit corneal epithelium, 52
Penetration of Cyclosporin A into the rabbit cornea and aqueous humor after topical drop and collagen shield administration, 119

Corneal hypoxia
Extended wear, corneal hypoxia, and corneal ulcers (letter), 218
Testing hypotheses for risk factors for CL-associated infectious keratitis in an animal model, 109

Corneal infiltrates
Clinical characteristics of corneal foreign bodies and their associated culture results, 128

Corneal scars
High-frequency ultrasound corneal pachymetry in the assessment of corneal scars for therapeutic planning, 198

Corneal stem cell disease
Corneal stem cell disease: concepts, categorization, and treatment by auto- and homotransplantation of limbal stem cells, 64

Corneal topography
Alteration of corneal asphericity in rigid gas permeable CL induced warpage, 27
Automobile manufacturing: Is there a lesson here for the RGP CL industry? 6
Clinical evaluation of a computerized topography software method for fitting rigid gas permeable contact lenses, 231
Importance of corneal topography, 4
New CL design for post-keratoplasty patients, 170

Corneal ulcers
Annualized incidence of CL induced keratitis in Sweden and its relation to lens type and wear schedule: Results of a 3-month prospective study, 225
Clinical characteristics of corneal foreign bodies and their associated culture results, 128
Corneal ulceration revisited(editorial), 86
Extended wear, corneal hypoxia, and corneal ulcers (letter), 218
Extended wear CLs: boon or bane? 73
Hospitalized cases of CL induced keratitis in Sweden and their relation to lens type and wear schedule: Results of a three-year retrospective study, 97
Lower incidence of CL related ulcers in Sweden: Is patient education a key? (editorial), 210
Rigid gas permeable extended wear, 139
Testing hypotheses for risk factors for CL-associated infectious keratitis in an animal model, 109

Corneal warpage
Alteration of corneal asphericity in rigid gas permeable CL induced warpage, 27

Cyclosporin A
Penetration of Cyclosporin A into the rabbit cornea and aqueous humor after topical drop and collagen shield administration, 119

Daily wear
Annualized incidence of CL induced keratitis in Sweden and its relation to lens type and wear schedule: Results of a 3-month prospective study, 225
Clinical performance of the Surevue, Focus, and CSI daily wear lenses in allergic and normal CL patients, 159
Hospitalized cases of CL induced keratitis in Sweden and their relation to lens type and wear schedule: Results of a three-year retrospective study, 97
Lower incidence of CL related ulcers in Sweden: Is patient education a key?(editorial), 210
Study of the complications induced by conventional and disposable CLs, 103

Diffractive contact lenses
Objective and subjective comparative analysis of diffractive and front surface aspheric CL designs used to correct presbyopia, 19

Disposable contact lenses
Annualized incidence of CL induced keratitis in Sweden and its relation to lens type and wear schedule: Results of a 3-month prospective study, 225
Corneal ulceration revisited(editorial), 86
Hospitalized cases of CL induced keratitis in Sweden and their relation to lens type and wear schedule: Results of a three-year retrospective study, 97
Lower incidence of CL related ulcers in Sweden: Is patient education a key?(editorial), 210
Retrospective study of disposable extended wear lenses in 100 patients: year 3, 179
Study of the complications induced by conventional and disposable CLs, 103

Disposable contact lens complications
Annualized incidence of CL induced keratitis in Sweden and its relation to lens type and wear schedule: Results of a 3-month prospective study, 225
Hospitalized cases of CL induced keratitis in Sweden and their relation to lens type and wear schedule: Results of a three-year retrospective study, 97
Lower incidence of CL related ulcers in Sweden: Is patient education a key?(editorial), 210
Retrospective study of disposable extended wear lenses in 100 patients: year 3, 179
Study of the complications induced by conventional and disposable CLs, 103

Dry eye
Enhancements to the conjunctival impression cytology technique and examples of applications in a clinico-biochemical study of dry eye, 59
Measurable subjective patient response to the dry eye, 249
Keratoconjunctivitis sicca in female patients infected with human immunodeficiency virus, 49

Editorials
Corneal ulceration revisited, 86
Growing field of CL research, 150
Importance of corneal topography, 4
Lower incidence of CL related ulcers in Sweden: Is patient education a key? 210

Environmental allergies
Clinical performance of the Surevue, Focus, and CSI daily wear lenses in allergic and normal CL patients, 159

Excimer laser
Electron microscopic findings in a cornea with recurrence of herpes simplex keratitis after excimer laser phototherapeutic keratectomy, 41
Excimer laser and reactivation of herpes simplex keratitis(letter), 152

Extended wear
Annualized incidence of CL induced keratitis in Sweden and its relation to lens type and wear schedule: Results of a 3-month prospective study, 225
Corneal Ulceration Revisited(editorial), 86
Extended wear CLs: boon or bane? 73
Extended wear, corneal hypoxia, and corneal ulcers (letter), 218
FluoroPerm 151 extended wear: A clinical study, 37
Hospitalized cases of CL induced keratitis in Sweden and their relation to lens type and wear schedule: Results of a three-year retrospective study, 97
Lower incidence of contact lens related ulcers in Sweden: Is patient education a key (editorial), 210
Retrospective study of disposable extended wear lenses in 100 patients: year 3, 179
Rigid gas permeable extended wear, 139
Study of the complications induced by conventional and disposable CLs, 103

Flurbiprofen
Ocufen(Flurbiprofen) in the treatment of ocular pain after radial keratotomy, 131

Frequent lens replacement
Clinical performance of the Surevue, Focus, and CSI daily wear lenses in allergic and normal CL patients, 159

Guest editorials
Automobile manufacturing: Is there a lesson here for the RGP CL industry? 6
CLAO: prepared to meet the future, 90
CL practice in the managed care environment, 212

Herpes simplex keratitis
Electron microscopic findings in a cornea with recurrence of herpes simplex keratitis after excimer laser phototherapeutic keratectomy, 41
Excimer laser and reactivation of herpes simplex keratitis(letter), 152

Keratoconus
Clinical management of keratoconus: A 6 year retrospective study, 194

Letters
Acanthamoeba keratitis and corneal neovascularization, 152
Excimer laser and reactivation of herpes simplex keratitis, 152
Extended wear, corneal hypoxia, and corneal ulcers, 218
Soft contact lenses and corneal astigmatism, 214

Limbal stem cells
Corneal stem cell disease: concepts, categorization, and treatment by auto- and homotransplantation of Limbal stem cells, 64

Macular degeneration
Age-related macular degeneration: principles and practice (book review), 7

Managed care
CL practice in the managed care environment (guest editorial), 212

Multifocal contact lenses
Prospective evaluation of Unilens soft multifocal CLs in 100 Patients, 189

Neovascularization
Acanthamoeba keratitis and corneal neovascularization(letter), 152
Histopathologic evaluation of stromal inflammation in *Acanthamoeba* keratitis, 45

Nonsteroidal anti-inflammatory drugs
Excimer laser and reactivation of herpes simplex keratitis(letter), 152
Ocufen(Flurbiprofen) in the treatment of ocular pain after radial keratotomy, 131

Pachymetry
Extended wear, corneal hypoxia, and corneal ulcers (letter), 218
High-frequency ultrasound corneal pachymetry in the assessment of corneal scars for therapeutic planning, 198

Penetrating keratoplasty
Clinical management of keratoconus: A 6 year retrospective study, 194
Histopathologic evaluation of stromal inflammation in acanthamoeba keratitis, 45
New CL design for post-keratoplasty patients, 170

Phototherapeutic keratectomy
Electron microscopic findings in a cornea with recurrence of herpes simplex keratitis after excimer laser phototherapeutic keratectomy, 41
Excimer laser phototherapeutic keratectomy for anterior corneal pathology, 253

Polymegathism
Extended wear CLs: boon or bane? 73

Post-penetrating keratoplasty contact lenses
New CL design for post-keratoplasty patients, 170

Presbyopia
Objective and subjective comparative analysis of diffractive and front surface aspheric CL designs used to correct presbyopia, 19
Prospective evaluation of unilens soft multifocal CLs in 100 Patients, 189

Radial keratotomy
Ocufen(Flurbiprofen) in the treatment of ocular pain after radial keratotomy, 131

RGP contact lenses
Alteration of corneal asphericity in rigid gas permeable CL induced warpage, 27
Annualized incidence of CL induced keratitis in Sweden and its relation to lens type and wear schedule: Results of a 3-month prospective study, 225
Clinical evaluation of a computerized topography software method for fitting rigid gas permeable CLs, 231
Effects of daily wear of rigid gas permeable CLs treated with CL care solutions containing preservatives on the rabbit cornea, 183
FluoroPerm 151 extended wear: A clinical study, 37
Lipid deposits on hydrophilic and rigid gas permeable CLs, 242
Rigid gas permeable extended wear, 139

RGP extended wear
FluoroPerm 151 extended wear: A clinical study, 37
Rigid gas permeable extended wear, 139

Scleral contact lenses
Current indications for scleral CLs, 115

Superficial punctate keratopathy
Study of the complications induced by conventional and disposable CLs, 103

Tears
Do human tears absorb ultraviolet light? 192
Keratoconjunctivitis sicca in female patients infected with human immunodeficiency virus, 49

Therapeutic contact lens wear
Current indications for scleral CLs, 115

Toric contact lenses
Bitoric rigid CL with prism fitting in rare cases of moderate corneal and residual astigmatism, 176
Soft CLs and corneal astigmatism (letter), 214
Topographic evaluation of toric soft CL correction, 261

Ultrasound corneal pachymetry
High-frequency ultrasound corneal pachymetry in the assessment of corneal scars for therapeutic planning, 198

Ultraviolet light
Do human tears absorb ultraviolet light? 192
Disinfection efficacy in an integrated ultraviolet light CL care system, 246

Videokeratography
Alteration of corneal asphericity in rigid gas permeable CL induced warpage, 27
Apparent pupil displacement in videokeratography, 123
